

## 70 PERCENT LLSIL AND POVERTY GUIDELINES FOR 2017

The Lower Living Standard Income Level (LLSIL) and poverty guidelines are used to establish low-income status for *Workforce Innovation and Opportunity Act* (WIOA) Title I programs. Local Workforce Development Areas (Local Areas) use the LLSIL to determine eligibility of youth, eligibility of employed adults for certain services, and self-sufficiency. Local Areas should consult the WIOA for more specific guidance.

Tables 1 through 5 show the 70 percent LLSIL and the poverty guidelines for western metropolitan and non-metropolitan areas, and for three specific Metropolitan Statistical Areas in California. In addition, each LLSIL table includes the 100 percent LLSIL that establishes the Department of Labor minimum self-sufficiency levels. The last column in each table shows the amount to be added to the figure for a family of six for each additional family member.

Since the income received during the six-month period immediately prior to the individual's application for WIOA funded services is used for income determination, each chart below shows the six-month, as well as the annual, figures for each family size. A comparison of the applicant's actual family income during the six-month income determination period with the six-month figures on the charts enables the reviewer to immediately determine an individual's eligibility.

### Effective Dates

LLSIL	May 23, 2017
Poverty Guidelines	January 26, 2017
